

# Elmsleigh

INFANT & NURSERY SCHOOL

## Grow to be the best we can be Online Safety Policy

**Written:** September 2024

**To be reviewed:** August 2026

**Policy Owner:** Miss Danielle Hamilton (Computing Lead)

**Ratified:** Mrs Nicola Price (Executive Headteacher)

## Introduction

This **Online Safety Policy** considers all current and relevant issues, in a whole school context, linking with other relevant policies such as a school's Safeguarding Policy, Behaviour Policy and Anti-Bullying Policy.

The requirement that learners can use digital technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. Schools must, through their Online Safety Policy, meet their statutory obligations to ensure that learners are safe and are protected from potential harm, both on and off-site. It will also form part of the school's protection from legal challenge, relating to the use of digital technologies.

An effective Online Safety Policy must be tailored to the needs of each school and an important part of the process will be the discussion and consultation which takes place during the writing or review of the policy. It is best practice that the school reviews their Online Safety Policy at least annually and, if necessary, more frequently in response to any significant new technological developments or trends in technology related behaviours.

The DfE Keeping Children Safe in Education statutory guidance requires Local Authorities, Multi Academy Trusts, and schools in England to ensure learners are safe from harm:

*"It is essential that children are safeguarded from potentially harmful and inappropriate online material. An effective whole school and college approach to **online safety** empowers a school or college to protect and educate pupils, students, and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate"*

*"Governing bodies and proprietors should ensure **online safety** is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how **online safety** is reflected as required in all relevant policies and considering online safety whilst planning the curriculum, any teacher training, the role and responsibilities of the designated safeguarding lead (and deputies) and any parental engagement"*

The DfE Keeping Children Safe in Education guidance also recommends:

*Reviewing online safety ... Technology, and risks and harms related to it, evolve, and change rapidly. Schools and colleges should consider carrying out an annual review of their approach to online safety, supported by an annual risk assessment that considers and reflects the risks their children face. A free online safety self-review tool for schools can be found via the 360 safe self-review tool.*

The DfE Keeping Children Safe in Education guidance suggests that:

*The breadth of issues classified within online safety is considerable and ever evolving, but can be categorised into four areas of risk:*

**content:** *being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism.*

**contact:** *being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.*

**conduct:** *online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and nonconsensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying, and*

**commerce:** *risks such as online gambling, inappropriate advertising, phishing and or financial scams.*

Schools in England are subject to an increased level of scrutiny of their online safety practices by Ofsted Inspectors during inspections, while the Counter Terrorism and Securities Act 2015 requires schools to ensure that children and young people are safe from terrorist and extremist material on the internet.

## Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Elmsleigh Infant and nursery school to safeguard members of our school community online in accordance with statutory guidance and best practice. *Schools should be aware of the legislative framework under which this Online*

*Safety Policy template and guidance has been produced as outlined in the attached 'Legislation' Appendix.*

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Elmsleigh Infant and Nursery school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

## Policy development, monitoring and review

This Online Safety Policy has been developed by:

- headteacher/senior leaders **Nicola Price** Exec Headteacher, **Ellen Collins** Head of school
- Designated safeguarding lead (DSL) **Ellen Collins / Laura Mansfield**
- Online Safety Lead (OSL) **Danielle Hamilton**
- staff – including teachers/support staff/technical staff- **Tina Arkless, Adrian Foster**
- Safeguarding governors **Kim Peace**

Consultation with the whole school community takes place through a range of formal and informal meetings.

## Schedule for development, monitoring and review

This Online Safety Policy was approved by the school governing body on:	<i>September 2024</i>
The implementation of this Online Safety Policy will be monitored by:	<i>Nicola Price, Ellen Collins, Laura Mansfield, Danielle Hamilton, Tina Arckless</i>

Monitoring will take place at regular intervals:	<i>Annually Sept 25</i>
The <i>governing body</i> will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	<i>3x Year at Governor's Meetings</i>
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	<i>September 2025</i>
Should serious online safety incidents take place, the following external persons/agencies should be informed:	<i>LADDO, Esteem MAT, Police</i>

## Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- *logs of reported incidents*
- *Filtering and monitoring logs*
- *surveys/questionnaires of:*
  - *learners*
  - *parents and carers*
  - *staff.*

## Policy and leadership

### Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online

behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals<sup>1</sup> and groups within the school.

### Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.
- The headteacher and (at least) another member of the senior leadership team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff<sup>1</sup>.
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.
- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Online Safety Lead.
- The headteacher/senior leaders will work with the **responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.**

### Governors

The DfE guidance “Keeping Children Safe in Education” states: “Governing bodies and proprietors should ensure there are appropriate policies and procedures in place in order for appropriate action to be taken in a timely manner to safeguard and promote children’s welfare .... this includes ... online safety”

---

“Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place)”

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy e.g. by asking the questions posed in the UKCIS document “Online Safety in Schools and Colleges – questions from the Governing Body”

This review will be carried out by the Elmsleigh Infant and Nursery School Governing Body whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- **regular meetings with the Designated Safeguarding Lead / Online Safety Lead**
- **regularly receiving (collated and anonymised) reports of online safety incidents**
- **checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)**
- **Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually.** The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor - in-line with the DfE Filtering and Monitoring Standards
- **reporting to relevant *governors group/meeting***
- receiving cyber-security training
- membership of the school Online Safety Group

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

### **Designated Safety Lead (DSL)**

Keeping Children Safe in Education states that:

*“The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). This should be explicit in the role holder’s job description.”*

*They (the DSL) “are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college”*

*They (the DSL) “can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online”*

While the responsibility for online safety is held by the DSL and cannot be delegated, the school may choose to appoint an Online Safety Lead or other relevant persons to work in support of the DSL in carrying out these responsibilities. It is recommended that the school reviews the sections below for the DSL and OSL and allocate roles depending on the structure it has chosen

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out
- attend relevant governing body meetings/groups
- report regularly to headteacher/senior leadership team
- be responsible for receiving reports of online safety incidents and handling them, and deciding whether to make a referral by liaising with relevant agencies, ensuring that all incidents are recorded.
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

### **Online Safety Lead**

The Online Safety Lead will:

- Support leading the Online Safety Group
- work closely on a day-to-day basis with the Designated Safeguarding Lead (DSL)
- receive reports of online safety issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future online safety developments

- have a leading role in establishing and reviewing the school online safety policies/documents
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond
- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners
- liaise with (school/local authority/MAT/external provider) technical staff, pastoral staff and support staff (as relevant)
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) with regard to the areas defined In Keeping Children Safe in Education:
  - content
  - contact
  - conduct
  - commerce

### Curriculum Leads

Curriculum Leads will work with the DSL/OSL to develop a planned and coordinated online safety education programme e.g. ProjectEVOLVE .

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

### Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- they understand that online safety is a core part of safeguarding
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to Danielle Hamilton for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers are on a professional level *and only carried out using official school systems*
- online safety issues are embedded in all aspects of the curriculum and other activities
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use *and that processes are in place for dealing with any unsuitable material that is found in internet searches*
- where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies (n.b. the guidance contained in the SWGfL Safe Remote Learning Resource)
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

## IT Provider

The DfE Filtering and Monitoring Standards says:

*“Senior leaders should work closely with governors or proprietors, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring. Your IT service provider may be a staff technician or an external service provider.”*

*“Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL should work closely*

*together with IT service providers to meet the needs of your setting. You may need to ask filtering or monitoring providers for system specific training and support."*

*"The IT service provider should have technical responsibility for:*

- *maintaining filtering and monitoring systems*
- *providing filtering and monitoring reports*
- *completing actions following concerns or checks to systems"*

*"The IT service provider should work with the senior leadership team and DSL to:*

- *procure systems*
- *identify risk*
- *carry out reviews*
- *carry out checks"*

*"We are aware that there may not be full-time staff for each of these roles and responsibility may lie as part of a wider role within the school, college, or trust. However, it must be clear who is responsible, and it must be possible to make prompt changes to your provision."*

If the school has a technology service provided by an outside contractor, it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices

- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to SLT for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person
- *monitoring systems are implemented and regularly updated as agreed in school policies*

### Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

### Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services etc
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

*Parents and carers will be encouraged to support the school in:*

- *reinforcing the online safety messages provided to learners in school.*
- *the safe and responsible use of their children's personal devices in the school (where this is allowed)*

## Community users

Community users who access school systems/website/learning platform as part of the wider school provision will be expected to sign a community user AUA before being provided with access to school systems.

*The school encourages the engagement of agencies/members of the community who can provide valuable contributions to the online safety provision and actively seeks to share its knowledge and good practice with other schools and the community.*

## Online Safety Group

The Online Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and monitoring the Online Safety Policy including the impact of initiatives. Depending on the size or structure of the school this group may be part of the safeguarding group. The group will also be responsible for regular reporting to senior leaders and the governing body.

The Online Safety Group has the following members:

- Designated Safeguarding Lead
- Online Safety Lead
- senior leaders
- online safety governor
- technical staff
- learners

Members of the Online Safety Group will assist the DSL/OSL (or another relevant person) with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision

- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

An Online Safety Group terms of reference template can be found in the appendices.

## Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

## Policy

### Online Safety Policy

The DfE guidance “Keeping Children Safe in Education” states:

“**Online safety** and the school or college’s approach to it should be reflected in the child protection policy”

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels

- is published on the school website.

## Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

### Acceptable use agreements

An Acceptable Use Agreement is a document that outlines a school's expectations on the responsible use of technology by its users. In most schools they are signed or acknowledged by their staff as part of their conditions of employment. Some may also require learners and parents/carers to sign them, though it is more important for these to be regularly promoted, understood and followed rather than just signed.

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction and handbook
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support.

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material,	<b>Any illegal activity for example:</b> <ul style="list-style-type: none"> <li>• Child sexual abuse imagery*</li> <li>• Child sexual abuse/exploitation/grooming</li> <li>• Terrorism</li> <li>• Encouraging or assisting suicide</li> <li>• Offences relating to sexual images i.e., revenge and extreme pornography</li> <li>• Incitement to and threats of violence</li> </ul>					X

User actions	Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
<p>remarks, proposals or comments that contain or relate to:</p> <ul style="list-style-type: none"> <li>Hate crime</li> <li>Public order offences - harassment and stalking</li> <li>Drug-related offences</li> <li>Weapons / firearms offences</li> <li>Fraud and financial crime including money laundering</li> </ul> <p>N.B. Schools should refer to guidance about dealing with self-generated images/sexting – <a href="#">UKSIC Responding to and managing sexting incidents</a> and <a href="#">UKCIS – Sexting in schools and colleges</a></p>					
<p>Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)</p> <ul style="list-style-type: none"> <li>Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised)</li> <li>Gaining unauthorised access to school networks, data and files, through the use of computers/devices</li> <li>Creating or propagating computer viruses or other harmful files</li> <li>Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords)</li> <li>Disable/Impair/Disrupt network functionality through the use of computers/devices</li> <li>Using penetration testing equipment (without relevant permission)</li> </ul> <p>N.B. Schools will need to decide whether these should be dealt with internally or by the police. Serious or repeat offences should be reported to the police. The National Crime Agency has a remit to prevent learners becoming involved in cyber-</p>					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	crime and harness their activity in positive ways- further information <a href="#">here</a>					
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs. (Informed by the school's filtering practices and/or AUAs)			X	X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

	Staff and other adults	Learners
--	------------------------	----------

<p>Consideration should be given for the following activities when undertaken for non-educational purposes:</p> <p>Schools may wish to add further activities to this list.</p>	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awareness
Online gaming	Not allowed				Not allowed			
Online shopping/commerce				Allowed for selected staff	Not allowed			
File sharing		Not allowed			Not allowed			
Social media				Allowed for selected staff	Not allowed			
Messaging/chat			Allowed at certain times		Not allowed			
Entertainment streaming e.g. Netflix, Disney+		Not allowed			Not allowed			
Use of video broadcasting, e.g. YouTube, Twitch, TikTok			Allowed at certain times		Not allowed			
Mobile phones may be brought to school		Not allowed					Allowed at certain times	
Use of mobile phones for learning at school	Not allowed				Not allowed			
Use of mobile phones in social time at school			Allowed at certain times		Not allowed			
Taking photos on mobile phones/cameras	Not allowed				Not allowed			

Use of other personal devices, e.g. tablets, gaming devices	■				■			
Use of personal e-mail in school, or on school network/wi-fi			■		■			
Use of school e-mail for personal e-mails	■				■			

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content. *Personal e-mail addresses, text messaging or social media must not be used for these communications.*
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- relevant policies and permissions should be followed when posting information online e.g., school website and social media. Only school e-mail addresses should be used to identify members of staff and learners.

## Reporting and responding

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for schools to understand that reporting systems do not always respond to the needs of learners. While the report looks specifically at harmful sexual behaviours, schools may wish to address these issues more generally in reviewing their reporting systems. The Ofsted review suggested:

*“School and college leaders should create a culture where sexual harassment and online sexual abuse are not tolerated, and where they identify issues and intervene early to better protect children and young people. ..In order to do this, they should assume that sexual*

*harassment and online sexual abuse are happening in their setting, even when there are no specific reports, and put in place a whole-school approach to address them. This should include:*

- *routine record-keeping and analysis of sexual harassment and sexual violence, including online, to identify patterns and intervene early to prevent abuse"*

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

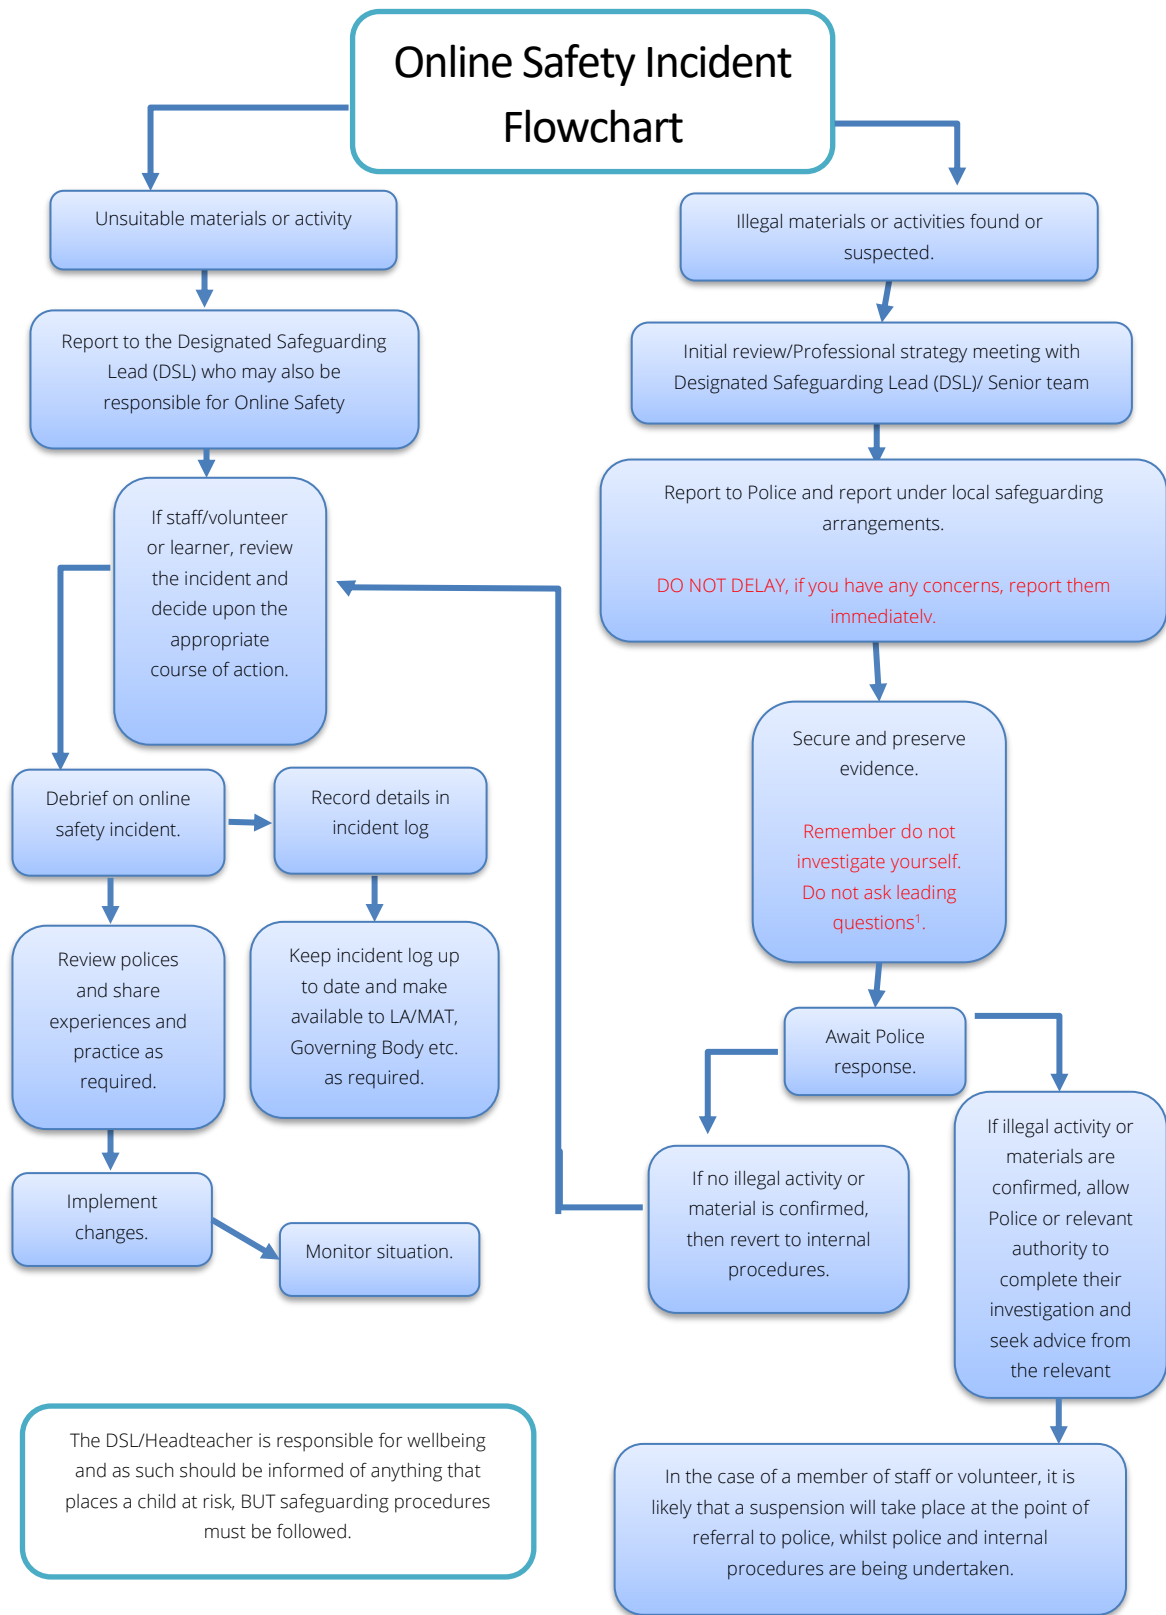

- there are clear reporting routes which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm (see flowchart and user actions chart in the appendix), the incident must be escalated through the agreed school safeguarding procedures, this may include
  - Non-consensual images
  - Self-generated images
  - Terrorism/extremism
  - Hate crime/ Abuse
  - Fraud and extortion
  - Harassment/stalking
  - Child Sexual Abuse Material (CSAM)
  - Child Sexual Exploitation Grooming
  - Extreme Pornography
  - Sale of illegal materials/substances
  - Cyber or hacking offences under the Computer Misuse Act
  - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority / MAT

- where there is no suspected illegal activity, devices may be checked using the following procedures:
  - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
  - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
  - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
  - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
  - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
    - internal response or discipline procedures
    - involvement by local authority / MAT (as relevant)
    - police involvement and/or action
- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged on MYCONCERNS,
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police; Professionals Online Safety Helpline; Reporting Harmful Content; CEOP.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions where relevant
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
  - *the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with*

- *staff, through regular briefings*
- *learners, through assemblies/lessons*
- *parents/carers, through newsletters, school social media, website*
- *governors, through regular safeguarding updates*
- *local authority/external agencies, as relevant (The Ofsted Review into Sexual Abuse in Schools and Colleges suggested “working closely with Local Safeguarding Partnerships in the area where the school or college is located so they are aware of the range of support available to children and young people who are victims or who perpetrate harmful sexual behaviour”)*

The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

## School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

## Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Head of Department / Principal Teacher / Deputy Head	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).		X	X	X			X		
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords	X								
Corrupting or destroying the data of other users.	X								X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X				X			X
Unauthorised downloading or uploading of files or use of file sharing.	X							X	

Using proxy sites or other means to subvert the school's filtering system.	X	X	X			X		X	X
Accidentally accessing offensive or pornographic material and failing to report the incident.	X	X	X			X			
Deliberately accessing or trying to access offensive or pornographic material.	X	X	X				X		
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	X								X
Unauthorised use of digital devices (including taking images)	X								X
Unauthorised use of online services	X								X
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X	X		X	X			X
Continued infringements of the above, following previous warnings or sanctions.	X	X	X		X	X	X		X

## Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
<b>Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)</b>		X	X	X			X	X
Deliberate actions to breach data protection or network security rules.		X	X					X
Deliberately accessing or trying to access offensive or pornographic material		X	X				X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software		X	X			X	X	X
Using proxy sites or other means to subvert the school's filtering system.		X	X			X		
Unauthorised downloading or uploading of files or file sharing		X	X			X		
Breaching copyright or licensing regulations.		X	X					
Allowing others to access school network by sharing username and passwords or attempting to access or		X	X			X		

accessing the school network, using another person's account.								
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	x	x	x			x		x
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	x	x	x					
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	x	x	x					
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	x	x	x					x
Actions which could compromise the staff member's professional standing	x	x						
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	x	x	x	x			x	x
Failing to report incidents whether caused by deliberate or accidental actions	x	x						
Continued infringements of the above, following previous warnings or sanctions.	x	x	x				x	x

## Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners

need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

The 2021 Ofsted “Review of Sexual Abuse in Schools and Colleges” highlighted the need for:

*“a carefully sequenced RSHE curriculum, based on the Department for Education’s (DfE’s) statutory guidance, that specifically includes sexual harassment and sexual violence, including online. This should include time for open discussion of topics that children and young people tell us they find particularly difficult, such as consent and the sending of ‘nudes’..”*

Keeping Children Safe in Education states:

*“Governing bodies and proprietors should ensure online safety is a running and interrelated theme whilst devising and implementing their whole school or college approach to safeguarding and related policies and procedures. This will include considering how online safety is reflected as required in all relevant policies and considering online safety whilst planning the curriculum ...”*

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- Elmsleigh Infant and Nursery School uses a planned online safety curriculum for all year groups matched against a nationally agreed framework (Education for a Connected World Framework by UKCIS/DCMS, SWGfL Project Evolve and PurpleMash) and regularly taught in a variety of contexts.
- Lessons are matched to need; are age-related and build on prior learning
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas e.g. PHSE; Computing
- it incorporates/makes use of relevant national initiatives and opportunities e.g. [Safer Internet Day](#) and [Anti-bullying week](#)
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.

- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the CyberChoices site.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit
- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

## Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme e.g. peer education, digital leaders leading lessons for younger learners, online safety campaigns
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

## Staff/volunteers

The DfE guidance “Keeping Children Safe in Education” states:

“All staff should receive appropriate safeguarding and child protection training (including online safety) at induction. The training should be **regularly updated**. In addition, all staff should receive safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively.”

“Governing bodies and proprietors should ensure... that safeguarding training for staff, **including online safety** training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning.”

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a planned programme of formal online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- *the Online Safety Lead and/or Designated Safeguarding Lead (or other nominated person) will receive regular updates through attendance at external training events, (e.g. UKSIC / SWGfL / MAT / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations*
- *this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days*
- *the Designated Safeguarding Lead/Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.*

## Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority/MAT or other relevant organisation (
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Cyber-security training (at least at a basic level)
- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and review.

## Families

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will seek to provide information and awareness to parents and carers through:

- *regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes*
- *regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc*
- *the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.*
- *letters, newsletters, website, learning platform,*
- *high profile events / campaigns e.g. Safer Internet Day*
- *reference to the relevant web sites/publications, e.g. SWGfL; [www.saferinternet.org.uk/](http://www.saferinternet.org.uk/); [www.childnet.com/parents-and-carers](http://www.childnet.com/parents-and-carers) (see Appendix for further links/resources).*
- *Sharing good practice with other schools in clusters and or the local authority/MAT*

## Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- *providing family learning courses in use of digital technologies and online safety*
- *providing online safety information via their website and social media for the wider community*
- *supporting community groups*

## Technology

The DfE Filtering and Monitoring Standards states that **“Your IT service provider may be a staff technician or an external service provider”**. If the school has an external technology provider, it is the responsibility of the school to ensure that the provider carries out all the online safety and security measures that would otherwise be the responsibility of the school. It is also important that the technology provider is fully aware of the school Online Safety Policy/acceptable use agreements and the school has a Data Processing Agreement in place with them. The school should also check their local authority/other relevant body policies on these technical and data protection issues if the service is not provided by the authority and will need to ensure that they have completed a Data Protection Impact Assessment (DPIA) for this contract.

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

## Filtering & Monitoring

The DfE guidance (for England) on filtering and monitoring in “Keeping Children Safe in Education” states:

“It is essential that governing bodies and proprietors ensure that appropriate filtering and monitoring systems are in place ...governing bodies and proprietors should be

doing all that they reasonably can to limit children's exposure to the ... risks from the school's or college's IT system. As part of this process, governing bodies and proprietors should ensure their school or college has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified...

The appropriateness of any filtering and monitoring systems are a matter for individual schools and colleges and will be informed in part, by the risk assessment required by the Prevent Duty. To support schools and colleges to meet this duty, the Department for Education has published filtering and monitoring standards..."

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours.

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility.

The filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or BYOD or new technology is introduced e.g. using SWGfL Test Filtering

## Filtering

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the

standards defined in the DfE **Filtering standards for schools and colleges** and the guidance provided in the UK Safer Internet Centre [Appropriate filtering](#).

- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes (see Appendix for more details).
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- *the school has provided enhanced/differentiated user-level filtering (allowing different filtering levels for different abilities/ages/stages and different groups of users: staff/learners, etc.)*
- *younger learners will use child friendly/age-appropriate search engines e.g. [SWGfL Swiggle](#)*
- *the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.*
- *access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.*

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

## Monitoring

Elmsleigh Infant and Nursery School has monitoring systems in place to protect the school, systems and users:

- We monitor all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.

- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

The school follows the UK Safer Internet Centre [Appropriate Monitoring](#) guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school's risk assessment. These may include:

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- *pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.*
- *where possible, school technical staff regularly monitor and record the activity of users on the school technical systems*
- *use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s)*

## Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements (these may be outlined in MAT policy and guidance):

- responsibility for technical security resides with SLT who may delegate activities to identified roles.
- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the IT service provider and will be reviewed, at least annually, by the SLT/Online Safety Group
- password policy and procedures are implemented.
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.

- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.
- the administrator passwords for school systems are kept in a secure place
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems
- servers, wireless systems and cabling are securely located and physical access restricted
- appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- SLT is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person (Confide)
- use of school devices out of school is regulated by an acceptable use statement that a user consents to when the device is allocated to them
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network
- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider
- removable media is not permitted unless approved by the SLT/IT service provider
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place
- guest users are provided with appropriate access to school systems based on an identified risk profile.

## Mobile technologies

The DfE guidance “Keeping Children Safe in Education” states:

*“The school or college should have a clear policy on the use of mobile and smart technology. Amongst other things this will reflect the fact many children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G). This access means some children, whilst at school or college, sexually harass, bully, and control others via their mobile and smart technology, share indecent images consensually and non-consensually (often via large chat groups) and view and share pornography and other harmful content. Schools and colleges should carefully consider how this is managed on their premises and reflect this in their mobile and smart technology policy and their child protection policy.*

Mobile technology devices may be school owned/provided or personally owned and might include smartphone, tablet, wearable devices, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school learning platform and other cloud-based services such as e-mail and data storage.

All users should understand that the primary purpose of the use of mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to those for safeguarding, behaviour, anti-bullying, acceptable use, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	<b>School devices</b>	<b>Personal devices</b>
--	-----------------------	-------------------------

	School owned for individual use	School owned for multiple users	Authorised device <sup>2</sup>	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No
Internet only						

#### School owned/provided devices:

- all school devices are managed through the use of Mobile Device Management software
- there is an asset log that clearly states whom a device has been allocated to – **Parago asset management system**.
- There is clear guidance on where, when and how use is allowed
- any designated mobile-free zone is clearly signposted
- personal use (e.g. online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
- the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.
- liability for damage aligns with current school policy for the replacement of equipment.
- education is in place to support responsible use.

#### Personal devices:

- there is a clear policy covering the use of personal mobile devices on school premises for all users
- where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storage should be made available.

<sup>2</sup> Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

- *the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.*
- *liability for loss/damage or malfunction of personal devices is clearly defined*
- *there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements*
- *education about the safe and responsible use of mobile devices is included in the school online safety education programmes*

#### Staff MUST:

- o Keep mobile phones and personal devices in a safe and secure place during lesson times.
- o Keep mobile phones and personal devices switched off or switched to 'silent' mode during lesson times.
- o Not use personal devices during teaching periods / when in contact with children unless permission has been given by the Headteacher, except in emergency circumstances.
- o Ensure that any content bought onto site via mobile phones and personal devices are compatible with their professional role and expectations.

Members of staff are not permitted to use their own personal phones or devices for contacting learners or parents and carers, except in cases of emergency. Any pre-existing relationships, which could undermine this, will be discussed with the Headteacher.

#### Staff will not use personal devices:

- o To take photos or videos of learners and will only use work-provided equipment for this purpose, unless authorised by the headteacher, for specific purposes.
- o Directly with learners and will only use work-provided equipment during lessons/educational activities.

## Social media

With widespread use of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of learners, the school and the individual when publishing any material online.

Expectations for teachers' professional conduct are set out in the DfE Teachers Standards but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for learners and staff. Schools could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, bully online, discriminate on the grounds of sex, race, or disability or who defame a third party may render the school liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- they do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.
- they act as positive role models in their use of social media

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff
- a code of behaviour for users of the accounts

- systems for reporting and dealing with abuse and misuse
- understanding of how incidents may be dealt with under school disciplinary procedures.

### Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- personal communications which do not refer to or impact upon the school are outside the scope of this policy
- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- *the school permits reasonable and appropriate access to personal social media sites during school hours for some staff members.*

### Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

School use of social media for professional purposes will be checked regularly by a senior leader to ensure compliance with the social media, data protection, communications, digital image and video policies. In the event of any social media issues that the school is unable to resolve support may be sought from the Professionals Online Safety Helpline.

The social media policy in Appendix C5 provides more detailed guidance on the school's responsibilities and on good practice.

## Digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and learners instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and learners need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees.

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm (select/delete as appropriate):

- **the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.** (Guidance can be found on the SWGfL Safer Remote Learning web pages and in the DfE Safeguarding and remote education)
- **when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.**
- **staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes**
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other *learners* in the digital/video images
- *staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images*
- *care should be taken when sharing digital/video images that learners are appropriately dressed*
- *learners must not take, use, share, publish or distribute images of others without their permission*

- *photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy*
- *learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.*
- *written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.*
- *parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy*
- *images will be securely stored in line with the school retention policy*
- *learners' work can only be published with the permission of the learner and parents/carers.*

## Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through:

- Public-facing website
- Social media
- Online newsletters
- Reach More Parents app

The school website is managed by Elisha Flamson. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

*The school's public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.*

*The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process.*

## Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

The school/MAT:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed
- has an 'information asset register' in place and knows exactly what personal data is held, where, why and which member of staff has responsibility for managing it
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice (see Privacy Notice section in the appendix)
- has procedures in place to deal with the individual rights of the data subject,
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier

- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors
- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents
- has a Freedom of Information Policy which sets out how it will deal with FOI requests
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices - work laptop provided
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data

- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

The Personal Data Advice and Guidance in the appendices provides more detailed information on the school's responsibilities and on good practice.

## Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

SWGfL would like to acknowledge a range of individuals and organisations whose policies, documents, advice, and guidance have contributed to the development of this school Online Safety Policy template and of the 360 safe online safety self-review tool:

Copyright of these policy templates is held by SWGfL. Schools and other educational institutions are permitted free use of the policy templates for the purposes of policy review and development. Any person or organisation wishing to use the document for other purposes should seek consent from SWGfL ([onlinesafety@swgfl.org.uk](mailto:onlinesafety@swgfl.org.uk)) and acknowledge its use.

Every effort has been made to ensure that the information included in this document is accurate, as at the date of publication in September 2023. However, SWGfL cannot guarantee its accuracy, nor can it accept liability in respect of the use of the material.

## A1 Elmsleigh Infant and Nursery School Acceptable Use of Technology Policy Acknowledgment

I, with my parents/carers, have read and understood the Acceptable Use of Technology Policy (AUP):

**When using a computer, laptop or ipad in school:**

- I will ask a teacher or suitable adult before using the computers/tablets.

- I will only use activities that a trusted adult has allowed me to use.

- I will take care of computers/tablets and other equipment.

- I will ask for help from a trusted adult if I am not sure what to do or if I think I have done something wrong.

- I will tell a teacher or suitable adult if I see something that upsets me on the screen.

- I know that if I break the rules, I might not be allowed to use a computer/tablet.

I, with my child, have read and discussed learner acceptable use of technology policy (AUP). I understand that the aim of the AUP is to help keep my child safe online and applies to the use of the internet and other related devices and services, inside and outside of the school/setting.

1. I am aware that any internet and IT use using school/setting equipment may be monitored for safety and security reasons to safeguard both my child and the school/setting systems. This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.
2. I understand that the school/setting will take every reasonable precaution, including monitoring and filtering systems, to ensure my child will be safe when they use the internet and other associated technologies. I understand that the school/setting cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.
3. I with my child, am aware of the importance of safe online behaviour and will not deliberately upload or add any images, video, sounds or text that could upset, threaten the safety of or offend any member of the school/setting community.
4. I understand that the school/setting will contact me if they have concerns about any possible breaches of the AUP or have any concerns about my child's safety.
5. I will inform the school/setting or other relevant organisations if I have concerns over my child's or other members of the school/setting communities' safety online.
6. I know that my child will receive online safety education to help them understand the importance of safe use of technology and the internet both in and out of school.
7. I will support the online safety approaches and will encourage my child to adopt safe use of the internet and other technology at home, as appropriate to their age and understanding.

## A2 Parent/Carer Acceptable Use Agreement

### Elmsleigh Infant and Nursery School

#### Acceptable use of the internet: agreement for parents and carers

**Name of parent/carers:**

**Name of child:**

Online channels are an important way for parents/carers to communicate with, or about, our school. The school uses the following channels:

- Our official Facebook page
- Email/text groups for parents (for school announcements and information)
- Virtual platforms – Dojo, Reach More Parents app
- Zoom / online meetings

If attending a meeting via Zoom, I will ensure the household are aware of the meeting to maintain appropriate content and I will not record the video.

When communicating with the school via official communication channels, or using private/independent channels to talk about the school, I will:

- Be respectful towards members of staff, and the school, at all times
- Be respectful of other parents/carers and children
- Direct any complaints or concerns through the school's official channels, so they can be dealt with in line with the school's complaints procedure

I will not:

- Use private groups, the school's Facebook page, or personal social media to complain about or criticise members of staff. This is not constructive and the school can't improve or address issues if they aren't raised in an appropriate way.
- Use private groups, the school's Facebook page, or personal social media to complain about, or try to resolve, a behaviour issue involving other pupils. I will contact the school and speak to the appropriate member of staff if I'm aware of a specific behaviour issue or incident.
- Upload or share photos or videos on social media of any child other than my own, unless I have the permission of other children's parents/carers.

## A3 Staff (and Volunteer) Acceptable Use Policy Agreement

### School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

### This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

### Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

**For my professional and personal safety:**

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

**I will be professional in my communications and actions when using school systems:**

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

**The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:**

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school's ICT systems.

- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

**When using the online systems in my professional capacity or for school sanctioned personal use:**

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

**I understand that I am responsible for my actions in and out of the school:**

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors/Trustees and/or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name: .....

Signed: .....

Date: .....

## A4 Acceptable Use Agreement for Community Users

This acceptable use agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential harm in their use of these systems and devices

### Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices will be monitored
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist and extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and/or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.
- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.

- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, whatever the cause.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this acceptable use agreement, the school has the right to remove my access to school systems/devices

I have read and understand the above and agree to use the school systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

As the school is collecting personal data by issuing this form, it should inform community users about:

Who will have access to this form.	How this form will be destroyed.
Where this form will be stored.	How long this form will be stored for.

## A5 Online Safety Group Terms of Reference

### 1. Purpose

To provide a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and the monitoring the online safety policy including the impact of initiatives.

### 2. Membership

2.1. The online safety group will seek to include representation from all stakeholders.

The composition of the group could include

- SLT member/s
- Designated Safeguarding Lead (DSL)
- Online Safety Lead (OSL)
- Teaching staff member
- Support staff member
- Governor
- Parent/Carer
- IT Support Provider
- Community users (where appropriate)
- *Learner representation – for advice and feedback. Learner voice is essential in the make-up of the online safety group, but learners would only be expected to take part in committee meetings where deemed relevant.*

2.2. Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.

2.3. Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.

2.4. Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature

2.5. When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

### 3. Chairperson

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying members;
- Inviting other people to attend meetings when required

- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome;
- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary

#### 4. Duration of Meetings

Meetings shall be held x 3 per academic year for a period of 1 hour.

#### 5. Functions

These are to assist the DSL/OSL (or other relevant person) with the following:

- To keep up to date with new developments in the area of online safety
- To (at least) annually review and develop the online safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the online safety policy
- To monitor the log of reported online safety incidents (anonymous) to inform future areas of teaching/learning/training.
- To co-ordinate consultation with the whole school community to ensure stakeholders are up to date with information, training and/or developments in the area of online safety. This could be carried out through [add/delete as relevant]:
- Staff meetings
- Learner forums (for advice and feedback)
- Governors meetings
- Surveys/questionnaires for learners, parents/carers and staff
- Parents evenings
- Website/newsletters
- Online safety events
- Internet Safety Day / weeks in school

Other methods:

- To ensure that monitoring is carried out of Internet sites used across the schools.
- To monitor filtering/change control logs (e.g. requests for blocking/unblocking sites).
- To monitor the safe use of data across the schools
- To monitor incidents involving cyberbullying for staff and learners

#### 6. Amendments

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority. The above Terms of Reference for Elmsleigh Infant and Nursery school have been agreed.

Signed by (SLT): ..... Date: .....

.....

Date for review: .....

Acknowledgement This template terms of reference document is based on one provided to schools by Somerset County Council

## A6 Responding to incidents of misuse – flow chart

## **B1 School Technical Security Policy (including filtering, monitoring and passwords)**

### Suggestions for use

Within this template sections which include information or guidance are shown in **BLUE**. It is anticipated that schools would remove these sections from their completed policy document, though this will be a decision for the group that produces the policy.

*Where sections in the template are written in italics it is anticipated that schools would wish to consider whether or not to include that section or statement in their completed policy.*

Where sections are highlighted in **BOLD** text, it is the view of the SWGfL Online Safety Group that these would be an essential part of a school online safety policy.

### Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. This is informed by the Department for Education (DfE) guidance, Keeping Children Safe in Education, and the Digital and Technology Standards and therefore applicable for schools and colleges in England. For schools and colleges outside England, this would be considered good practice, the school should also ensure that they remain compliant with national, local authority or MAT guidance, as relevant. The school is responsible for ensuring that the *school infrastructure/network* is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- access to personal data is securely controlled in line with the school's personal data policy
- system logs are maintained and reviewed to monitor user activity
- there is effective guidance and training for users
- there are regular reviews and audits of the safety and security of school computer systems, including filtering and monitoring provision

This template is not designed to reproduce the entirety of the DfE's standards, but is designed to support governors and senior leaders in the production of a technical security policy. Governors and senior leaders remain responsible for the school's technical security.

## Responsibilities

Education settings are directly responsible for ensuring they have the appropriate level of security protection procedures in place in order to safeguard their systems, staff and learners and review the effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies. The management of technical security is the responsibility of Governors and Senior Leaders, supported in this by the Designated Safeguarding Lead, Online Safety Lead and IT Service Provider.

## Policy statements

The school is responsible for ensuring that their infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people receive guidance and training and will be effective in carrying out their responsibilities:

- school technical systems will be managed in ways that ensure that the school meets recommended technical requirements (if not managed by the Local Authority/MAT, these may be outlined in Local Authority/other relevant body technical guidance)
- cyber security is included in the school risk register.
- there will be regular reviews and audits of the safety and security of school technical systems.
- servers, wireless systems, and cabling must be securely located and physical access restricted.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- appropriate security measures (including updates) are in place to protect the servers, firewalls, switches, routers, wireless systems, workstations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data, including operating systems.
- the school's infrastructure and individual workstations are protected by up-to-date software to protect against malicious threats from viruses, worms, trojans etc.
- responsibilities for the management of technical security are clearly assigned to appropriate and well-trained staff within the MAT.
- all users will have clearly defined access rights to school technical systems and accounts are deleted when the user leaves. *Details of the access rights available to groups of users will be recorded by the network manager/technical staff/other person and will be reviewed, at least annually, by the online safety group.*
- users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must

immediately report any suspicion or evidence that there has been a breach of security  
(see *password section below*)

- The IT Service Provider, in partnership with Governors/SLT/DSL, regularly monitors and records the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.
- mobile device security and management procedures are in place.
- an appropriate system is in place (myconcerns / confide) for users to report any actual/potential technical incident to the SLT/DSL/Online Safety Lead (OSL)/ (or other relevant person, as agreed)
- SLT is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations (Inadequate licencing could cause the school to breach the Copyright Act which could result in fines or unexpected licensing costs)
- *remote management tools are used by staff to control workstations and view users' activity.*
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- *by default, users do not have administrator access to any school-owned device.*
- *an agreed policy is in place regarding the extent of personal use that users (staff/learners/community users) and their family members are allowed on school devices that may be used out of school.*
- an agreed policy is in place regarding the use of removable media by users on school devices
- personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

### Password Security

A safe and secure username/password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices, email and learning platform). The [SWGfL "Why password security is important"](#) leaflet is shared with staff to help explain the significance of passwords as this is helpful in explaining why they are necessary and important. Where sensitive data is in use – particularly when accessed on mobile devices.

### Policy Statements:

- The password policy and procedures reflect NCSC and DfE advice/guidance.
- The use of passwords is reduced wherever possible, for example, using Multi-Factor Authentication (MFA) or (Single Sign On) SSO.

- Security measures are in place to reduce brute-force attacks and common passwords are blocked.
- School networks and system will be protected by secure passwords.
- Passwords are encrypted by the system to prevent theft.
- Passwords for Office 365 require regular updating.
- The use of password managers is encouraged.
- Users are able to reset their password themselves.
- Users are encouraged to have passwords that are at least 12 characters long and to use 3 random words.
- Passwords are immediately changed in the event of a suspected or confirmed compromise.
- No default passwords are in use. All passwords provided “out of the box” are changed to a unique password once logged in.
- Multi-Factor Authentication methods are being developed.
- A copy of administrator passwords is kept in a secure location.
- All users (adults and learners) have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Passwords must not be shared with anyone.

#### Learner passwords:

Schools need to take a risk-based approach to the allocation of learner usernames and passwords.. For younger children and those with special educational needs, the DfE guidance states that schools could:

- consider using authentication methods other than passwords.
  - consider using a separate account accessed by the teacher rather than the student.
  - segment the network so such accounts cannot reach sensitive data.
  - consider if the data or service being accessed requires authentication.
- 
- For younger children and those with special educational needs, learner usernames and passwords can be kept in an electronic or paper-based form, but they must be securely kept when not required by the user. *Password complexity for these users could be reduced (for example 6-character maximum) and should not include special characters. Where external systems have different password requirements the use of random words or sentences should be encouraged.*

- Learners will be taught the importance of password security, this should include how passwords are compromised, and why these password rules are important. The ProjectEVOLVE Privacy and Security strand should help you with this.

## Filtering and Monitoring

### Filtering

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, as online content changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is only one element in a larger strategy for online safety and acceptable use.

DfE Keeping Children Safe in Education requires schools to have “appropriate filtering”. DfE published Filtering and monitoring standards for schools and colleges in March 2023. Schools are recommended to use the UK Safer Internet Centre Definitions to help them determine if their filtering system is appropriate.

We test our filtering for protection against illegal materials at: [SWGfL Test Filtering](#)

The school wireless internet connection is secured. Our ISP is Primary ICT – this is used across the Esteem Trust. We use ‘Securly’ for our filtering system (<https://www.securly.com/filter>) which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature. The filtering system blocks all sites on the Internet Watch Foundation (IWF) list. We work with Securly to ensure that our filtering policy is continually reviewed. Our filtering system is operational, up to date and applied to all:

- users, including guest accounts.
- school owned devices
- devices using the school broadband connection.

Our filtering system:

- filters all internet feeds, including any backup connections.
- is age and ability appropriate for the users and is suitable for educational settings.
- handles multilingual web content, images, common misspellings and abbreviations.
- identify technologies and techniques that allow users to get around the filtering such as VPNs and proxy services and block them.
- provides alerts when any web content has been blocked.
- filtering on mobile or app technologies.

## Introduction to Monitoring

Monitoring user activity on school devices is an important part of providing a safe environment for children and staff. Unlike filtering, it does not stop users from accessing material through internet searches or software. A variety of monitoring strategies are used to minimise safeguarding risks on internet connected devices and may include:

- physically monitoring by staff watching screens of users
- live supervision by staff on a console with device management software
- network monitoring using log files of internet traffic and web access
- individual device monitoring through software or third-party services

## Filtering and Monitoring Responsibilities

DfE Filtering Standards require that schools and colleges identify and assign roles and responsibilities to manage your filtering and monitoring systems, and include

Role	Responsibility	Name / Position
Responsible Governor	Strategic responsibility for filtering and monitoring and need assurance that the standards are being met.	Kim Peace
Senior Leadership	Team Member Responsible for ensuring these standards are met and: <ul style="list-style-type: none"> <li>• procuring filtering and monitoring systems</li> <li>• documenting decisions on what is blocked or allowed and why</li> </ul>	Nicola Price / Ellen Collins / MAT team (Adrian Foster)

	<ul style="list-style-type: none"> <li>• reviewing the effectiveness of your provision</li> <li>• overseeing reports</li> </ul> <p>Ensure that all staff:</p> <ul style="list-style-type: none"> <li>• understand their role</li> <li>• are appropriately trained</li> <li>• follow policies, processes and procedures</li> <li>• act on reports and concerns</li> </ul>	
Designated Safeguarding Lead	<p>Lead responsibility for safeguarding and online safety, which could include overseeing and acting on:</p> <ul style="list-style-type: none"> <li>• filtering and monitoring reports</li> <li>• safeguarding concerns</li> <li>• checks to filtering and monitoring systems</li> </ul>	Ellen Collins supported by Danielle Hamilton
IT Service Provider	<p>Technical responsibility for:</p> <ul style="list-style-type: none"> <li>• maintaining filtering and monitoring systems</li> <li>• providing filtering and monitoring reports</li> <li>• completing actions following concerns or checks to systems</li> </ul>	Securly
All staff  need to be aware of reporting mechanisms for safeguarding and technical concerns. They should report if:	<ul style="list-style-type: none"> <li>• they witness or suspect unsuitable material has been accessed</li> <li>• they can access unsuitable material</li> <li>• they are teaching topics which could create unusual activity on the filtering logs</li> <li>• there is failure in the software or abuse of the system</li> <li>• there are perceived unreasonable restrictions that affect teaching and learning or administrative tasks</li> <li>• they notice abbreviations or misspellings that allow access to restricted material</li> </ul>	

## Policy Statements

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and other illegal content lists. Filter content lists are regularly updated and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed internet access through the school network, filtering will be applied that is consistent with school practice.

- There is a filtering and monitoring system in place that safeguards staff and learners by blocking harmful, illegal and inappropriate content.
- There is a monitoring system that enables the prompt investigation of a potential safeguarding incident and outcomes are logged.
- Roles and responsibilities for the management of filtering and monitoring systems have been defined and allocated.
- The filtering and monitoring provision is reviewed at least annually and checked regularly.
- There is a defined and agreed process for making changes to the filtering or monitoring system that involves a senior leader in the agreement of the change.
- Mobile devices that access the school's internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems.
- *We have enhanced/differentiated user-level filtering allowing different filtering levels for different ages/stages and different groups of users – staff/learners etc.*

## Changes to Filtering and Monitoring Systems

- Staff may request access to certain websites by discussing their needs initially with the online safety lead (Danielle Hamilton) who will then discuss with the DSL where needed or the MAT IT team.
- Websites requested will be checked before being permitted or denied.
- A member of SLT or the MAT IT team will be a second responsible person who will agree to the change before it is made.
- Changes to policies on Securly are logged automatically.

## Filtering and Monitoring Review and Checks

To understand and evaluate the changing needs and potential risks of the school, the filtering and monitoring provision will be reviewed at least annually. The review will be conducted by members of the senior leadership team, the designated safeguarding lead (DSL), and the IT service provider. Additional checks to filtering and monitoring will be informed by the review process so that governors have assurance that systems are working effectively and meeting safeguarding obligations.

### Reviewing the filtering and monitoring provision

A review of filtering and monitoring will be carried out to identify the current provision, any gaps, and the specific needs of learners and staff.

The review will take account of:

- the risk profile of learners, including their age range, pupils with special educational needs and disability (SEND), pupils with English as an additional language (EAL)
- what the filtering system currently blocks or allows and why
- any outside safeguarding influences, such as county lines
- any relevant safeguarding reports
- the digital resilience of learners
- teaching requirements, for example, the RHSE and PSHE curriculum
- the specific use of chosen technologies
- what related safeguarding or technology policies are in place
- what checks are currently taking place and how resulting actions are handled

To make the filtering and monitoring provision effective, the review will inform:

- related safeguarding or technology policies and procedures
- roles and responsibilities
- training of staff
- curriculum and learning opportunities
- procurement decisions
- how often and what is checked
- monitoring strategies

The review will be carried out as a minimum annually, or when:

- a safeguarding risk is identified

- there is a change in working practice, e.g. remote access or BYOD
- new technology is introduced

### Checking the filtering and monitoring systems

Checks to filtering and monitoring systems are completed and recorded as part of the filtering and monitoring review process. How often the checks take place will be based on the context, the risks highlighted in the filtering and monitoring review, and any other risk assessments. Checks will be undertaken from both a safeguarding and IT perspective.

When filtering and monitoring systems are checked this should include further checks to verify that the system setup has not changed or been deactivated. Checks are performed on a range of:

- school owned devices and services, including those used off site
- user groups, for example, teachers, pupils and guests

Logs of checks are kept so they can be reviewed. These record:

- when the checks took place
- who did the check
- what was tested or checked
- resulting actions

The SWGfL Filtering Standards checklist may be helpful.

### Training/Awareness:

It is a statutory requirement in England that staff receive training, at least annually, about safeguarding, child protection, online safety and filtering and monitoring. Furthermore, in order to protect personal and sensitive data, governors, senior leaders, staff and learners should receive training about information security and data protection, at least annually.

**Governors, Senior Leaders and staff are made aware of the expectations of them:**

- at induction
- at whole-staff/governor training
- through the awareness of policy requirements
- through the acceptable use agreements

- in regular updates throughout the year

Those with specific responsibilities for filtering and monitoring (Responsible Governor, DSL, OSL or other relevant persons) will receive enhanced training to help them understand filtering and monitoring systems and their implementation and review.

**Learners are made aware of the expectations of them:**

- in lessons
- through the acceptable use agreements

Parents will be informed of the school's filtering policy through the acceptable use agreement and through online safety awareness sessions/newsletter etc. (amend as relevant)

**Audit/Monitoring/Reporting/Review:**

Governors/SLT/DSL/OSL will ensure that full records are kept of:

- Training provided
- User Ids and requests for password changes
- *Security incidents related to this policy*
- *Annual online safety reviews including filtering and monitoring*
- *Changes to the filtering system*
- *Checks on the filtering and monitoring systems*

## C1 Online safety training needs – self audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	

### ONLINE SAFETY TRAINING NEEDS AUDIT

Are there any areas of online safety in which you would like training/further training? / Further comments

### Appendix Legislation

Schools should be aware of the legislative framework under which this online safety policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an online safety issue or situation.

A useful summary of relevant legislation can be found at: [Report Harmful Content: Laws about harmful behaviours](#)

### Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- “Eavesdrop” on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Schools may wish to view the National Crime Agency website which includes information about [“Cyber crime – preventing young people from getting involved”](#). Each region in England (& Wales) has a Regional Organised Crime Unit (ROCU) Cyber-Prevent team that works with schools to encourage young people to make positive use of their cyber skills. There is a useful [summary of the Act on the NCA site](#).

## Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.
- Secure.
- Not transferred to other countries without adequate protection.

## The Data Protection Act 2018:

Updates the 1998 Act, incorporates the General Data Protection Regulations (GDPR) and aims to:

- Facilitate the secure transfer of information within the European Union.
- Prevent people or organisations from holding and using inaccurate information on individuals. This applies to information regarding both private lives or business.
- Give the public confidence about how businesses can use their personal information.
- Provide data subjects with the legal right to check the information businesses hold about them. They can also request for the data controller to destroy it.
- Give data subjects greater control over how data controllers handle their data.
- Place emphasis on accountability. This requires businesses to have processes in place that demonstrate how they're securely handling data.
- Require firms to keep people's personal data safe and secure. Data controllers must ensure that it is not misused.
- Require the data user or holder to register with the Information Commissioner.

All data subjects have the right to:

- Receive clear information about what you will use their data for.
- Access their own personal information.
- Request for their data to be revised if out of date or erased. These are known as the right to rectification and the right to erasure
- Request information about the reasoning behind any automated decisions, such as if computer software denies them access to a loan.
- Prevent or query about the automated processing of their personal data.

### **Freedom of Information Act 2000**

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

### **Communications Act 2003**

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

### **Malicious Communications Act 1988**

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

### **Regulation of Investigatory Powers Act 2000**

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
  - Ascertain whether the communication is business or personal;
  - Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

### **Trade Marks Act 1994**

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

### **Copyright, Designs and Patents Act 1988**

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. YouTube).

### **Telecommunications Act 1984**

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

### **Criminal Justice & Public Order Act 1994**

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

### **Racial and Religious Hatred Act 2006**

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

### **Protection from Harassment Act 1997**

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

### **Protection of Children Act 1978**

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

### **Sexual Offences Act 2003**

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

### **Public Order Act 1986**

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

### **Obscene Publications Act 1959 and 1964**

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

## Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of “higher law”, affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

## The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of learners when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

## The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data.

(see template policy in these appendices and for DfE guidance -

<http://www.education.gov.uk/schools/learnersupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation>)

## The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent/carer to use Biometric systems

## The School Information Regulations 2012

Requires schools to publish certain information on its website:

<https://www.gov.uk/guidance/what-maintained-schools-must-publish-online>

### **Serious Crime Act 2015**

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)

### **Criminal Justice and Courts Act 2015**

Revenge porn – as it is now commonly known – involves the distribution of private and personal explicit images or video footage of an individual without their consent, with the intention of causing them embarrassment and distress. Often revenge porn is used maliciously to shame ex-partners. Revenge porn was made a specific offence in the Criminal Justice and Courts Act 2015. The Act specifies that if you are accused of revenge porn and found guilty of the criminal offence, you could be prosecuted and face a sentence of up to two years in prison.

## Glossary of Terms

AUP/AUA	Acceptable Use Policy/Agreement – see templates earlier in this document
CEOP	Child Exploitation and Online Protection Centre (part of National Crime Agency, UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes.
CPD	Continuous Professional Development
FOSI	Family Online Safety Institute
ICO	Information Commissioners Office
ICT	Information and Communications Technology
INSET	In Service Education and Training
IP address	The label that identifies each computer to other computers using the IP (internet protocol)
ISP	Internet Service Provider
ISPA	Internet Service Providers' Association
IWF	Internet Watch Foundation
LA	Local Authority
LAN	Local Area Network
MAT	Multi Academy Trust
MIS	Management Information System
NEN	National Education Network – works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain.
Ofcom	Office of Communications (Independent communications sector regulator)
SWGfL	South West Grid for Learning Trust – the Regional Broadband Consortium of SW Local Authorities – is the provider of broadband and other services for schools and other organisations in the SW
TUK	Think U Know – educational online safety programmes for schools, young people and parents.

UKSIC	UK Safer Internet Centre – EU funded centre. Main partners are SWGfL, Childnet and Internet Watch Foundation.
UKCIS	UK Council for Internet Safety
VLE	Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting,
WAP	Wireless Application Protocol

A more comprehensive glossary can be found at the end of the UKCIS [Education for a Connected World Framework](#)
